## **FAVOR HIGHER RATES** FOR LOAN AGENCIES

Associated Charities Indorses Bill Sent to Congress by Commissioners Increasing Legal Interest.

WOULD AID POOR, IS CLAIM

A memorandum indorsing the bill sent to Congress by the District Commissioners providing a rate of interest higher than I per cent on small loans was adopted at a meeting of the board of managers of the Associated Charities yesterday. A copy of the memorandum was ordered filed with the House District Committee, where the proposed bill now is under consideration.

The memorandum recites the fact that the rate permitted must be sufficient to attract capital into the business of making and the promision of the proposed bill are front, side and back porches, water, fine attic, all floored, handsome shade trees; facing car line, 5 cent car fare; in Kenliworth: only \$18 per month.

The board expresses the opinion based upon its experience in dealing with those in need that every effort ing with those in need that every effort should be made to place this class of transactions upon a business rather than upon a charity basis. The board insists that the poor man should not be discriminated against in his effort to maintain his self-respect and independence, which will be the case if the rate is so low that the money cannot be furnished him. Attention is called to the fact that the class of loans under consideration are not negotiable through the ordinary commercial bank and trust com-panies. The experience of the Asso-ciated Charities in the administration of its own "needy-hour loan fund" is referred to, showing that the losses in collections have been very heavy, and that wherever people have come to the society who had negotiable security or

mitee, which has been investigating for several years the "loan shark" question appeared before the House District Com-mitee yesterday. W. H. Baldwin, chair-man; the Rev. John Van Schalck, jr., Walter S. Ufford, secretary of the Asse ciated Charities, and Mrs. Archibald Hopkins, were the speakers. They held that the present rate of interest is not suffi-cient to stiract capital.
